Professional Summary

AI & Cloud Engineer with 4+ years of experience building and scaling enterprise-grade AI platforms, automation frameworks, and RAG-based applications. Proven expertise across the full SDLC—from requirements and architecture to deployment and production hypercare. Strong background in Azure AI services, cloud-native engineering, DevOps, and cross-functional collaboration. Winner of a 2025 enterprise innovation hackathon for delivering a production-ready Agentic AI system aligned with real-world business use cases.

Core Skills

AI & Cloud Engineering: Azure OpenAI, RAG Pipelines, Agentic AI, Azure AI Search, Azure Document Intelligence, Content Understanding, Cloud-native AI Solutions

Software Engineering: Python, Java, C#, C++, .NET, JavaScript, API Development, Automation Engineering

Data Engineering: Azure Data Factory, Databricks, SQL, ETL Pipelines, Data Processing

DevOps & Operations: CI/CD (Azure DevOps), Git, Monitoring, RCA, Production Hypercare, Platform Reliability

Collaboration & Delivery: Requirements Gathering, Agile (Scrum), Sprint Planning, Stakeholder Communication, Mentoring

Work Experience

Software Engineer

Nov 2024 – Present

Orion Innovation, Chennai

- Led hypercare engineering for a configuration-driven, RAG-based AI platform, ensuring 24×7 production stability.
- Built and maintained AI solutions using Azure Document Intelligence (SaaS and AKS), Azure AI Search, and Content Understanding.
- Owned end-to-end SDLC delivery including architecture, development, deployment, defect resolution, and production support.
- Performed root-cause analysis (RCA) and post-incident reviews to improve platform reliability and resilience.
- Partnered with product and engineering teams to optimize performance and harden system design.

Software Engineer

Jun 2022 – Nov 2024

Elastacloud, Bangalore

- Designed and delivered AI/ML-driven data platforms and automation solutions for enterprise customers.
- Built RAG-based applications that improved operational efficiency and user experience.
- Implemented CI/CD pipelines, reducing deployment cycle time by approximately 30%.
- Reduced production incidents and downtime by roughly 35% through workflow re-engineering.
- Collaborated with global stakeholders to translate business needs into scalable technical solutions.

Junior Software Engineer

Jun 2021 – Jun 2022

Elastacloud, Bangalore

- Developed backend services and automation workflows, improving team productivity by approximately 20%.
- Optimized SQL queries and data access patterns, reducing response times by nearly 30%.
- Supported Agile delivery through sprint execution, defect triage, and technical documentation.

Junior Software Engineer

Mar 2021 – Jun 2021

Sopra Steria, Chennai

- Contributed to SAP-based workflow automation initiatives for enterprise banking clients.
- Assisted with requirement analysis, automation delivery, and stakeholder coordination.

Notable Projects

Hackathon Winner – Agentic AI System for Smart Incident Management (2025)

- Architected and delivered an Agentic AI system for autonomous incident detection, analysis, and resolution.
- Implemented multi-agent workflows with context-aware reasoning and AI-assisted decision-making.
- Awarded first place in a 2025 enterprise innovation hackathon for business impact and execution quality.

Service Transformation & Automation Initiatives (2024 – Present)

- Delivered multiple end-to-end AI-driven automation solutions supporting enterprise transformation goals.
- **ServiceNow Ticket Assigner:** Automated ticket routing using Azure Functions to improve SLA adherence.
- **Knowledge Extraction & Migration Tool:** Built SharePoint → Blob → Azure AI Search ingestion pipelines.
- **Ticket Sentiment Analysis Tool:** Applied NLP on ServiceNow work notes to detect early dissatisfaction.
- **Certificate Automation Tools:** Automated certificate comparison, expiry alerts, and secret validation.

Certifications

- Azure AI Engineer Associate
- Azure AI Fundamentals
- Azure Security Engineer Associate
- Databricks Certified Data Engineer Associate (V2)
- Prompt Engineering Certification
- GSDC Certified Learning: AI Agent Builder Masterclass
- GSDC Certified Learning: AI Implementation Series

Education

Bachelor of Engineering – Computer Science & Engineering
Sri Eshwar College of Engineering, Anna University, India

2016 – 2020
